

Navigator Eco-Logical 18lb has a better quality than regular 20lb papers and provides a unique printing solution for daily print and copy applications.

Its properties have been carefully calibrated to deliver unmatched productivity in the most state-of-the-art printing machines available in the market, guaranteeing consistency day after day.

ENVIRONMENTAL SOLUTION FOR DAILY PRINT AND COPY APPLICATIONS.

High quality raw materials - By using the best quality fiber - *Eucalyptus globulus* - Navigator is an environmental paper for everyday use that guarantees increased thickness and stiffness for improved runnability.

Eco friendly production cycle - In the last decade we have reduced our impact: less 55% in fossil fuel consumption; less 46% in fossil CO₂ and less 49% in water consumption. Plus, Navigator Eco-Logical 18lb is produced using 65% green energy (biomass), which not only reduces dependency from fossil fuels but also emissions.

Responsible forest management - We grow 12 million plants every year in our forest nurseries. Portuguese forests have grown by 77% in the last century, with a huge contribution from the paper industry.

Less wood usage - up to 40% less *Eucalyptus globulus* wood usage when compared to north-american fibers.

Less waste generated - 10% waste reduction compared to 20lb papers.

High whiteness - ideal for all daily applications with some use of color.

Produced under rigorous conditions - state-of-the-art paper making technology, with daily testing in the most modern printing machines.

Navigator Eco-Logical 18lb is highly productive, cost-efficient and environmentally-sensible solution for everyday office usage.
