EXTRA SMOOTH WITH A MICRO POROUS SURFACE

SUPERIOR PRINTING QUALITY

Navigator's sheet formation and porosity guarantee uniform ink/ toner application onto the paper surface and its high whiteness increases printing contrast. Plus Navigator's excellent opacity avoids show through duplex printing applications and its specially treated surface ensures adequate ink paper interaction and better toner adhesion.

GUARANTEES PERFECT IMAGES WITH LOWER INK CONSUMPTION

BEST PERFORMANCE

Navigator's ideal thickness / stiffness ratio reduces printing waste such as paper jamming, misfeeding and multifeeding. The absolute and relative humidity levels are controlled to provide good post-printing flatness and to minimize post-printing curl.

Navigator guarantees good cutting quality for stable, trouble-free larger print runs.

EXTRA THICK AND OPAQUE PAPER

NO SHOW THROUGH	
OR WAVINESS	
	= =
ACCURATE	
CHARACTER DEFINITI)N

Fast drying surface. Ideal for printing: Reports, Memos, Colour Graphics, Data Tables, etc.

Navigator is one of the whitest office papers available in the market, which makes it especially suitable for colour printing and any type of document.

EXPRESSION 90 g.m⁻²

Accurate definition for impressive reports

Bright white paper. Excellent print contrast for superb ink-lift for high quality colour documents.

Extra smooth. Micro porous surface for fast ink drying and accurate absorption for high definition images Extra thick and opaque.

Prevents print show through and sheet waviness, while providing accurate character definition.

FAST DRYING

ACCURATE ABSORPTION

IMPROVED SURFACE BENEFITS

NAVIGATOR ALLOWS YOU TO:

Maximize printing quality keeping existing printer settings. Protect your office equipement due to the improved surface and corresponding lower abrasiveness.

Standard Surface

Navigator Improved Surface

INCREASED VALUE FOR YOUR PRESENTATIONS

THE IDEAL SOLUTION FOR YOUR PRESENTATIONS

Engineered smoothness which minimizes runnability issues, as well as providing a high quality tactile sensation.

Excellent opacity to avoid show through and print-through and intensive use of colour guaranteed in duplex printing applications.

Excellent printing contrast thanks to Navigator's high whiteness.

Excellent printing contrast

Ideal for high quality colour documents such as: Presentations, Reports, Newsletters, Statements, Mailings, etc. Navigator's even sheet formation and porosity guarantee uniform ink/toner application onto the paper surface. Its specially treated surface ensures adequate ink-paper interaction and better toner adhesion.

PRESENTATION 100 g.m⁻²

Superior quality that makes your work look even better

Superior thickness and smoothness. Leads to a sensation of superior guality, ideal to add value to your communication.

Double sided use. Duplex printing and intensive usage of colour are guaranteed without print show through.

Multifunctional. Guaranteed for all colour inkjet and laser printers and colour copiers.

Whiteness is extremely important for printing quality, since it enhances colour contrast and increases impact on the reader. Navigator is one of the whitest office papers available in the market, which makes it especially suitable for colour printing and any type of document. Plus, Navigator's excellent opacity avoids show-through in duplex printing applications and its specially treated surface ensures adequate ink paper interaction and better toner adhesion. The superior quality of Navigator also makes it ideal for double sided printing, even when using colour.

Ideal for all full colour documents: Brochures, Catalogues, Flyers, Posters, Photos, etc.

COLOUR DOCUMENTS 120 g.m⁻²

Perfect surface for enhancing high resolution documents

The best image definition. For all your high resolution, full colour documents.

Makes the most of colour. Improve results with excellent print contrast, vivid colours and sharp images.

Increased stiffness and thickness. For double sided printing without show through, even in full colour applications.

WHY USE **NAVIGATOR?**

THE BEST RAW MATERIALS...

EUCALYPTUS GLOBULUS FIBRES HAVE EXCELLENT PAPERMAKING CHARACTERISTICS.

> SHORTER FIBRE

- = High number of fibres per unit weight
- > THICK CELL WALL = Thicker sheet of paper = better printing performance
- **EXCELLENT POROSITY, HIGH OPACITY, GOOD FORMATION** = Paper quality
- > HIGH STIFFNESS, HIGH BULK, GOOD DIMENSIONAL STABILITY = Unmatched Runnability

...CREATE THE BEST PAPER.

THICKNESS

- **HIGHER THICKNESS** = Bulkier touch to the paper, which gives a perception of better quality.
- Navigator's sheet formation and porosity guarantee uniform ink/toner application onto the paper surface, which is especially treated to ensure adequate ink/paper interaction and better toner adhesion

SMOOTHNESS

> HIGHER SMOOTHNESS = Better printing definition and a tactile and visual sensation of superior quality to the paper.

ROUGHER PAPER Some areas of the paper surface don't have ink

Some areas of the paper surface don't have ink

SMOOTHER PAPER Continuous Ink Film

Continuous Ink Film

WHITENESS & OPACITY > WHITENESS IS EXTREMELY IMPORTANT FOR PRINTING QUALITY,

since it enhances colour contrast and increases impact on the reader, a visual sensation of superior quality. The high whiteness of Navigator makes it especially suitable for colour printing and any type of document.

> The superior opacity of Navigator also makes it **ideal for double sided printing**, even when using colour, since show through is minimized.

HIGH RUNNABILITY

> NAVIGATOR'S IDEAL THICKNESS/STIFFNESS RATIO REDUCES PRINTING WASTE SUCH AS PAPER JAMMING, MISFEEDING AND MULTIFEEDING. The absolute and relative humidity levels are controlled to provide good post-printing flatness and to minimize post-printing curl, even under extreme printing scenarios.

*

According to the "Color Effectiveness Study – Business & Consumer Survey Trends" by Infotrends, that focused on Small Businesses of all professional areas, from managers to CEOs, and also Consumer Respondents.

The scope of the study was to evaluate the relative benefits in the eyes of both the document recipient and owner, of documents with greater or more effective use of colour versus those without. It was based on a quantitative survey with 22 questions submitted to 307 office document producer (business) interviews and 319 consumer interviews.
